

Forensics

from: Olive Health Travel Clinic

Price: £0.00

Date: 2018-10-12 11:09:42

Expiration Date: 0000-00-00 00:00:00

Description

In legal cases, (e.g. paternity, immigration, contact/custody orders, child maintenance, disputed trusts or wills, and individual profiling for legal identification) only registered nurses, doctors or accredited individuals are approved to take DNA Testing samples. Our registered nurses are accredited to provide this service for you. DNA Testing collection for legal cases is normally done by company/laboratory referral and your company/laboratory will refer you to us to arrange your appointment. The donor will be required to bring 2 passport sized photographs and an official photo ID card (driving license/passport) at the time of appointment. DNA is collected by buccal/mouth swab, hair strands or blood test.
