Description

In simple terms, we come to you to take your blood tests samples. It's easy, it's quick, and it's from the comfort of your own home. This service is available for both Private blood testing services and for NHS patients with a blood tests request form from their GP. There could be a number of reasons why you can't get to a hospital or blood tests centre. i.e. you could be homebound, have a busy work schedule, have family commitments preventing you from finding the time, or simply prefer the comfort of staying home! Whatever your reason, beat the waiting times, travelling efforts and parking costs by simply booking a home visit. For NHS patients: Your results will be available from your GP as normal. For Private patients: Your results will be issued to you within 48-72 hours.
